

## Criteria of Library 4.2.1

### 4.2.1 Library is partially automated using Integrated Library Management System (ILMS),

The college central library is the most vibrant unit of this institution. The library has collection of books, dissertation and other reading materials. The library has collection of 11080 books. The library is partially automated. The Library has Soul software 3.0 version. This system is developed by INFLIBNET and has been installed in the college and is utilized by the faculty & students used for process of Acquisition, Ordering, Cataloguing, and Circulation. Dewey Decimal Classification Scheme is used for the classification of books Computer terminals are arranged in the library for internet access and academic work for students and staff. Online cataloging will be made available to users through OPAC, in the library.

A barcode system will be made available in entering the book information of issue-return. At the beginning of academic year a budget is allocated to library for various expenses such as subscription of e- resources and software, purchases of books etc. Besides it, the institute also takes efforts to enrich its library by approaching various government and non-governmental organizations for donations is available in library through which users can access e-books and journals free of any charges. An entry book is maintained in the library for users so that the footfall can be monitored. Reading section is made available for users, where they can read newspapers or other reading materials. Various types reading material available in library. CCTV surveillance system is also there in the library.
